The Friends' bank balance at the time of this report stands at £476.89 with a petty cash fund of £22.08, which at first glance is at a similar level to what it was at the end of 2022. However, £250 of this is a donation for seating to be located in the Hillfort area, and therefore our actual available fund is only £248.97 (total).

A Wassail took place this year which enabled us to make a £150 donation to the local Foodbank . Also, as we have continued to bring our own refreshments, there has not been any other regular income. The only other income received this year was the recent £250 donation noted above. We also received a grant from the local authority of £906.02 which funded the purchase of equipment.

Our only other item of expenditure this year was for the Web Site which had been negotiated down from previous levels. Our 'kitty' is likely to continue to decrease in the absence of any regular income.

At the last AGM it was proposed that one solution would be to ask for voluntary contributions, now, or at some time in the future, with the other option being to reinstate communal refreshments. Other suggestions are of course welcome.

### 6 Any Other Business

Jon Bishop congratulated the Friends on the work they had done over the last year. The Hillfort and Putnoe Wood were in excellent condition and used and enjoyed by many people.

The Chairman closed the Annual General Meeting.

#### **APPENDIX 1**

# Chairman's report 30 Nov 22 to 7 Nov 23

I will seek to pick out the main events of the year in my meeting overview. Lynn has kindly kept a full record of our work over the last year, which will be included with the minutes.

I will start by acknowledging the sad loss this year of John Wilkie, one of our longest serving members. John acted as treasurer for the Friends for many years and was a very active member and the go to guy for all of our wood-working needs. He is very much missed.

# **Mowsbury Hillfort**

The Wassail took place in January 2023 and £150 was raised for Bedford food bank.

In February 47 trees were planted at the bottom of the meadow with a view to eventually reducing the number of golf balls coming on to the site. All but two seem to be healthy.

In March the information board was replaced with a spare as the original had warped. A range of new tools were bought with Borough Council ward funding. Most have now seen active service.

In April red mason bees were installed in the orchard, but no sign that they used the bee boxes this year. Unfortunately, the bee release box has now been chewed, probably by squirrels. The seat, hillfort sign and info post were painted.

In June the site was entered into the CPRE Living Countryside Awards and made it to the last stage.

A Green Flag was awarded in July following a mystery shopper visit.

£250 donation from Airedale Nursing Home is to be used for benches at the hillfort and wood.

#### **Putnoe Wood**

Coppice plot 1f and the scallop opposite were coppiced from November 22 to February 23.

On March 6 oak saplings were planted in coppice plot 1e and one sapling in coppice plot 1f. Thanks to Fiona for growing them in pots for several years.

Mick has made temporary repairs to the bridge from the playing field.

In July a Green Flag was awarded following a visit hosted by John Wallace and Chris Wedge.

#### **Particular thanks**

Thanks go to Andy for maintaining the website and Facebook page, Marion for hosting the zoom meetings and Peter as treasurer. Chris for co-ordinating the butterfly surveys and Green Flag applications. Lynn for keeping the events log. Especial thanks to John Wallace for sorting out the tasks and to Helen for continuing the secretary's duties through a difficult year.

# **Additional notes on Mowsbury Hillfort**

A planning application for 3 detached bungalows was made to Bedford Borough Council in September on land adjoining the public footpath, west of the hillfort site. A formal objection was made on behalf of the Friends.

The meadow was mown on the 12 Sept 23. The courtyard, ramparts, island, orchard, bottom of meadow and south scarp slope have been brush cut with patches left uncut for invertebrates overwintering. Cuttings composted at the edges of the site. Thanks to Mick, Martin and Tom for their brush cutting efforts.

A large branch fell into pond 2 and was cut for removal. Some branches remain in the pond as it has been too wet to remove them. A lower branch fell from the dead pine. Jon Bishop is to commission work on the trees to ensure their safety.

Martin and Sue have done sterling service in picking up golf balls over the year.

Mick and Anne have done litter picks on Sundays and Chris Wedge has organised the butterfly survey.

#### **Additional notes on Putnoe Wood**

Small balsam was brush cut and pulled in June. Debris has been removed from the stream including a toilet seat and a railway sleeper.

Some widow maker branches were dealt with and the friends have helped to clear cut trees/branches and occasional fallers.
